DIARY NOTES

DD/S [REDACTED]

20 June 1960

1. I talked with Emmett Echols and [REDACTED] separately about our separation regulations. Apparently, Eugene Lyons of the White House is still opposed to the payment of up to twelve months salary. Frank was to see Mr. Stans this afternoon and promised to get in touch with me within a day or two. I specifically requested that he telephone me rather than write so that we could arrange a meeting with Messrs. Stans and Lyons if necessary. H

2. I discussed the Office of Central Reference proposal to go ahead with the Videograph Project with Jim Garrison and [REDACTED] separately. It has been agreed to put this on the agenda for the Project Review Committee Meeting on Thursday afternoon. [REDACTED] has been notified. Bob Amory advised me that he wished to discuss the Machine Translation Project at the PRC Meeting on Thursday and I have also notified John to be prepared to comment on this.)

3. [REDACTED] delivered to me the questions which the Bureau of the Budget proposes we answer when we request a release from the Reserve. They have been slightly modified by DD/P but I think that they should be entirely acceptable.

4. [REDACTED] discussed with me the possibility of setting up "position allowances" for certain Agency personnel similar to those which general officers of the Armed Services have in order to allow them to take care of their representational responsibilities where other U. S. Government employees are involved. I concurred in principle and asked him to staff this out with other appropriate people in the Agency.

7. Emmett Echols reported that [REDACTED] was completely in the clear with regard to the discussion of classified information which took place at a recent party that [REDACTED] at [REDACTED] 25X1A9a tended. [REDACTED] did not participate in the discussion of the U-2 incident and did not know that there was a newspaper man present. (Colonel Grogan has been so advised.)

8. Ed Saunders briefed me on the status of the transfer of funds in connection with the [REDACTED] project." There are many complications in using counterpart funds and Ed

suggested that [REDACTED] go to the target country to investigate the matter on the spot. He believed, however, that a memorandum from the Director to the Comptroller saying that he had made this commitment would be adequate to charge the expenditure against Fiscal Year 1960 funds.

George Carey was over to talk to me about [REDACTED] I told him that in view of [REDACTED] record and the most unfavorable publicity in connection with his recent accident I thought that we should accept his resignation. I agreed that he should be permitted to exhaust his sick leave with the understanding, of course, that he would supply a doctor's certificate to cover this period.
